On-Site

Full-Time
(40 hr/wk)

\$16/hr

Inseer, Inc. is a rapidly growing start-up in the Iowa City area. We are developing groundbreaking ergonomic analysis software using machine learning, computer vision, and artificial intelligence. We are aggressively expanding and looking for talented, self-motivated team members to work with us.

Why work at Inseer?

- You'll be on the ground floor of a young startup, making a large impact on our products with ample opportunity to grow as a professional
- We are constantly innovating and pushing the boundary of ergonomic computer vision
- A great team of many people with diverse skillsets including Ph.D.'s on our research team and experienced, highly driven engineers on our development team

Your Skills

JavaScript

Angular

Node.js

HTML

Express.js

MongoDB

Git

CSS

Your Responsibilities

- Plan, implement, and enhance cross-stack features to support and develop our SaaS applications
- Write maintainable, scalable, modular, and clean code
- Ask questions about what you don't understand
